- * The right to a preferential interest rate within the KOMBI offer on a ČSOB Term Deposit with a 6-month maturity (hereinafter referred as „Account“) arises for the Account Owner who has an open current account type Private Account and deposits his funds into the Account and at the same time invests in the following ratio: (i) half of the funds, but at least EUR 10.000, is deposited into Account with a 6-month maturity in EUR from 1. 1. 2026 (including) to 31. 1. 2026 (including) and at the same time (ii) the other half of the funds (including the entry fee), or invests funds in the same amount as the deposit already made to the Account on the same date by submitting a Fund purchase order in EUR in one of the funds: Mixed funds of the Horizon KBC group within the private offer, Mixed fund Optimum Fund Enhanced Intelligence Global Allocation and all equity funds in the current fund offer denominated in EUR. The Account owner who fulfills the conditions specified in the previous sentence will be entitled to interest on the deposit in the Account at the interest rate valid for the Kombi offer for the first deposit commitment period, as of the date of deposit creation. The above applies provided that the Account owner does not cancel Fund purchase order before its settlement. In case of failure to comply with the above conditions, the interest rate on the deposit in the Account is 0.01% p.a. from the date the Bank discovers the violation of the above conditions by the Account owner. A 6-month term deposit can also be closed separately with the interest rate valid for ČSOB Term Deposits for the respective term of the deposit. You can also invest in funds separately, without using the Kombi offer, and information about the costs and fees of the relevant fund can be found at <https://www.csob.sk/podielovefondy> in the documents Ex-ante cost transparency.
